Dtd.30.11.2022

To

Deputy Director General of Forests (C),
Ministry of Env., Forest and Climate Change,
Integrated Regional Office,
A/3, Chandrasekharapur, Bhubaneswar – 751023
Email: roez.bsr-mef@nic.in

Ref : 1. **Environment Clearance letter No. :** F.No.J-11011/594/2008-IA II (I), dtd. 04.05.2009.
2. **Name of the Project:** Expansion of Ferro Alloys Plant (High Carbon Ferro Chrome, 65,000 TPA to 1,30,000 TPA) at Randia, District Bhadrak, Orissa by M/s. Ferro Alloys Corporation Ltd.

Sub : **Submission of Six Monthly Compliances Report against Environment Clearance letter No. :**
F.No. J- 11011/594/2008-IA II (I), dtd. 04.05.2009 issued to M/s. Ferro Alloys Corporation Ltd. for the period from April 2022 to September 2022.

Dear Sir,

In compliance to General Condition No. ix of the Environment Clearance letter No. : F.No.J-11011/594/2008-IA II (I), dtd. 04.05.2009, issued by your good office. we are submitting herewith Six-Monthly Compliance Report with respect to Charge Chrome Plant of M/s. Ferro Alloys Corporation Limited, situated at -D. P Nagar, Po-Randia, District – Bhadrak for the period from April 2022 to September 2022.

The Monthly Environmental Monitoring data and other required information with respect to compliance of the said Environment Clearance for the period from April 2022 to September 2022 are also enclosed herewith as Annexure for your kind perusal and records.

Further, we would like to inform that recently we have received Environment Clearance vide EC Identification No. EC22A008OR193113 for the expansion project of our Charge Chrome Plant of M/s Ferro Alloys Corporation Ltd. As such the six-month compliance report of this new EC will be submitted in due time.

Received of the same may kindly be acknowledged herewith.

Thanking you
Yours faithfully

For Ferro Alloys Corporation Ltd.

Factory Manager
Charge Chrome Plant

Enclosed: As above.

Copy to: Director I.A. Division, Ministry of Environment and Forest, Paryavaran Bhawan, New Delhi.

**Six Monthly Environmental Compliance Report
For the period from April 2022 to September 2022**

| S.No | Conditions | Compliance of Conditions |
|------|---|--|
| | A. Specific Conditions | |
| 1 | i Continuous monitoring facilities for all the stacks and sufficient air pollution control equipment's viz. fume extraction system, cyclones and bag filters to the gas cleaning plant (GCP), ID fan and stack of adequate height to submerged arc furnace shall be provided to control particulate matter emissions below 100 mg/Nm ³ . Bag filters shall be provided to control the dust generated from the briquetting plant. The Orissa Pollution Control Board may specify more stringent standards for the relevant parameters keeping in view the nature of the industry and its size and location. At no time, the emission level shall go beyond the prescribed standards. Interlocking facilities shall be provided so that process can be automatically stopped in case emission level exceeds the limit. | Complied. The exhaust gas from the semi opened Smelting Arc Furnace generated at a temperature of over 350°C containing dust Particulates, Sulphur Dioxide; Oxides of Nitrogen, Carbon Monoxide is cleaned by Dry Gas Cleaning Plant. GCP consists of Ducts, Equalizer, Trombone Cooler, ID Fan, Bag Filters for separation of dust from the flue gas. Regular preventive maintenance of pollution control equipment's is carried out. AAQMS and Stack monitoring is done by authorized 3rd Party on monthly basis. Report enclosed herewith as Annexure -A. The emission level is within prescribed standard. |
| 2 | ii At least four ambient air quality monitoring stations shall be established in the downward direction as well as where maximum ground level concentration of SPM, SO ₂ and NO _x are anticipated in consultation with the OPCB. Data on ambient air quality and stack emissions should be regularly submitted to this Ministry including its Regional Office at Bhubaneswar, OPCB and CPCB once in six months. | Complied. The ambient air quality monitoring is done in four different location of the plant - Auto garage, MRP Plant, MRSS and R&C Lab. Stack monitoring of GCP and Dryer stack is done by authorized 3rd party Kalyani laboratories PVT. LTD. Data on ambient air quality and stack emission are being regularly submitted to OSPCB. |
| 3 | iii In-plant control measures for checking fugitive emissions from all the vulnerable sources shall be provided. Dry fog dust suppression system will be provided at crushing (and screening section of metal recovery plant to control fugitive emissions generated during crushing, screening etc. Dust extraction system shall be provided to control the fugitive dust from raw material handling, screening and conveying section along with product handling section, transfer and feeding points to control fugitive dust emissions to meet the OPCB norms. Internal roads shall be made black topped and asphalted. Water spraying shall also be done to prevent the dust emanation due to vehicular movement. | Complied. In order to control the fugitive emission there are bag filters attached to dryer plant. Water sprinklers are provided at storage hopper and feeding points of raw material handling system. Plant roads & approach roads have already made concreted, with the help of one water tankers of 10KL capacity are being sprinkled over the roads throughout the working shift to prevent the dust emanation due to vehicular movement. |
| 4 | iv Data on ambient air quality, stack emissions and fugitive emissions shall be uploaded on the Company's website and also regularly submitted on-line to the Ministry's Regional Office at Bhubaneswar, Orissa Pollution Control Board (OPCB) and Central Pollution Control Board (CPCB) as well as hard copy once in six months. Data on SPM, SO ₂ and NO _x shall also be displayed prominently outside the premises at the appropriate place for the information of general public. | Authorized 3rd party monitoring report of air quality and stack emission is been submitted in monthly for the concern Orissa Pollution Control Board (OPCB). Report enclosed herewith as Annexure -B. Data on ambient air quality, stack emission and fugitive emissions will be uploaded on company's website shortly after resumption of server error in the company portal. Data on SPM, SO ₂ and NO _x are being displayed prominently outside the premises at the appropriate place for the information of general public. |
| 5 | v Secondary fugitive emissions from all the sources shall be controlled within the latest permissible limits issued by the Ministry and regularly monitored. Guidelines / Code of Practice issued by the CPCB shall be followed. | Complied. Secondary fugitive emissions are being controlled by bag houses at dryer & briquetting plant, water sprinklers and water tankers all other area of the plant. |
| 6 | vi Vehicular pollution due to transportation of raw material and finished product shall be controlled. Proper arrangements shall also be made to control dust emissions during loading and unloading of the raw material and finished product. | Complied. The water tanker of 10KLD capacity are being used as dust suppression on concrete roads through out working shift with proper housekeeping contract service to control dust emissions during loading and unloading of the raw material and finished product. |
| 7 | vii Total water requirement should not exceed 168 m ³ /day ground water as per the 'permission' accorded by the Central Ground Water Authority vide letter no. 21 4(74)/SER/CGWA/2008-1281 dated 24th October, 2008. Closed circuit cooling system shall be adopted to reduce water consumption. Effluent from Soft water plant shall be neutralized and collected in equalization-cum-settling pond and clear water recycled/reused for dust suppression, metal cooling, slag granulation, green belt development and other plant related activities within the plant premises. Cooling under blow down shall be treated and completely recycled. Wastewater from Jigging Plant shall be treated in a settling tank and reused in Jigging plant. No wastewater shall be discharged outside the factory premises and 'zero' discharge shall be adopted. Domestic wastewater shall be treated in septic tanks followed by soak pit system and used for green belt development. | Complied. We have obtained NOC from Central Ground water authority (CGWA) for use of ground water in our charge chorme plant and the total water are beign used within the prescribed limit of CGWA. Closed circuit cooling system are being adopted to reduce water consumption. No wastewater are being discharged outside the factory premises and 'zero' discharge are being adopted. Work in progress for installation of STP and the treated water to be used for green belt development. |
| 8 | viii Zero' effluent discharge shall be strictly followed and no wastewater shall be discharged outside the premises. | Complied. 'Zero' effluent discharge are being strictly followed and no wastewater are being discharged outside the premises. |

Manoj Kumar Shaw
 Factory Manager
 Ferro Alloys Corporation Ltd.
 D.P. Nagar, Randia
 Bhadrak-756135

| | | | |
|----|------|--|---|
| 9 | ix | Metal Recovery Plant shall be installed to recover metal in metal recovery plant (Jigging plant) through hydraulic juzzing process. Discharge from metal recovery plant shall be monitored for the Chromium content and maintained within the permissible limit before recycling-and-reuse. Slag-tailings shall be dumped-in-own-premises in secured-land fill as per CPCB guidelines after recovery of the metal. Used oils/lubricants shall be sold to authorized recyclers / reproprocessors. | Complied. Metal Recovery Plant has already been installed. Discharge from metal recovery plant are being monitored for the Chromium content and maintained within the permissible limit before recycling-and-reuse. Slag-tailings are being dumped-in-own-premises in secured-land fill as per CPCB guidelines after recovery of the metal. Used oil is being disposed within 90 days to authorized vendor according to hazardous authorization 2016. |
| 10 | x | Chromate slag shall be used for road making only after passing through Toxic Chemical Leachability Potential (TCLP) test. Otherwise, Ferro chrome shall be recovered from the slag and output waste shall be disposed in secured landfill as per CPCB guidelines. All the other solid waste shall be properly disposed off in environment-friendly manner. No hazardous materials shall be spilled out and good house keeping practices shall be adopted. Hazardous waste shall be handled as per the Hazardous Waste (Management & Handling) Rules, 1989 and subsequent amendments. | Complied. The slag is being reused as a filling in the low lying areas and for the road making purpose as per the approval of OSPCB. All the other solid waste are being properly disposed off in environment-friendly manner. No hazardous materials are being spilled out and good house keeping practices has already been adopted. Hazardous waste are being handled as per the Hazardous Waste (Management & Handling) Rules, 1989 and subsequent amendments. |
| 11 | xi | Product fines, flue dust should not be dumped anywhere but reused in the process. Flue dust and briquette plant dryer dust along with chrome ore fines shall be reused for making briquettes after ensuring non-hazardous in nature. Sewage sludge from Septic tank shall be used as manure. | Complied. The flue dust is reused by Collecting in Silo through chain conveyor and made into pellets, Pellets are charged into furnace on day-to-day basis. The work is under progress for use of sewage sludge from Septic tank as manure. |
| 12 | xii | Proper handling, storage, utilization and disposal of all the solid waste shall be ensured and regular report regarding toxic metal content in the waste material and its composition, end use of solid/hazardous waste shall be submitted to the Ministry's Regional Office at Bhubaneswar, OPCB and CPCB. | Complied. Solid and hazardous waste is being monitored and intimation to the concern authorities before and after the disposal of waste. FORM 4 annual report is submitted to OSPCB on yearly basis. Copy enclosed herewith as Annexure -C. |
| 13 | xiii | As proposed, green belt shall be developed in at least 84 acres (33 %) out of total 205.50 acres within and around the plant premises as per the CPCB guidelines in consultation with DFO. | We have developed greenbelt in & around the plant premises. However we are going to conduct green belt survey by engaging authorized third party to assess the actual percentage of coverage. |
| 14 | xiv | All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Ferro chrome units shall be strictly implemented. | Complied. All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Ferro chrome units are being implemented. |
| 15 | xv | All the issues raised during the Public Hearing / Public Consultation meeting and commitments made shall be satisfactorily implemented. | It has been clarified vide Para 4.0 of the Environment Clearance dated on 04.05.2009 that no public hearing is required as per section 7(ii) of EIA notification, 2006. |

| | | | |
|----------|-----|---|--|
| B | | General Condition | |
| 1 | i | The project authorities must strictly adhere to the stipulations made by the Orissa Pollution Control Board (OPCB) and the State Government. | All the necessary measures have been taken to adhere to the stipulations made by Orissa Pollution Control (OPCB) and the State Government. |
| 2 | ii | No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests. | Complied. |
| 3 | iii | Industrial wastewater shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended form time to time. The treated wastewater shall be utilized for plantation purpose. | The Industrial waste water are properly collected through garland drain and recycle to the process. The treated wastewater is being utilized for plantation purpose. |
| 4 | iv | The company shall develop rain water harvesting structures to harvest the rain water for utilization in the lean season besides recharging the ground water table. | We have provided three nos rainwater harvesting pond in plant as well as colony area to conserve rain water and utilize in lean season. |
| 5 | v | The overall noise levels in and around the plant area shall be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels should conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (daytime) and 70 dBA (nighttime). | Noise level is being monitored internally in all major working location inside the plant premises and are within the standard. |
| 6 | vi | Occupational Health Surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act. | Periodic Medical Examination is being conducted yearly for all employees and workmen on regular basis and records are also being maintained as per the Factories Act. |
| 7 | vii | The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, the company must undertake socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc. | We are complying with all the environmental protection measures and safeguards recommended in the EIA/EMP report. Further, we have already engaged our CSR team for undertaking socio-economic development activities in the surrounding villages like community development programmes, educational programmes, drinking water supply and health care etc. |

| | | | |
|----|------|--|--|
| 8 | viii | As proposed, Rs. 10.00 Crores and Rs. 4.00 Crores shall be earmarked towards capital cost and recurring cost/annum for the environment pollution control measures shall be judiciously utilized to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government. The funds so provided shall not be diverted for any other purpose. | The company has been acquired by Vedanta Ltd. As per the order dated 30.01.2020 of National Company Law Tribunal Cuttack bench. A new board has also been constituted on dated 21.09.2020 pursuant to the order of NCLT and the provision of IBC - 2016. The new management has already proposed specific budget to be utilized for environment pollution control measures and to implement the conditions stipulated by MOEF as well as the state government. |
| 9 | ix | The Regional Office of this Ministry at Bhubaneswar / CPCB / OPCB shall monitor the stipulated conditions. A six monthly compliance report and the monitored data along with statistical interpretation shall be submitted to them regularly. | Monitoring data is being sent to OPCB on monthly basis. Six monthly compliance report submitted to MOEF herewith. |
| 10 | x | The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the OPCB and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in . This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the Regional office at Bhubaneswar. | We have published and circulated the environment clearance of our plant on daily odia newspaper Samaj and Sambad dated 01.10.2009 for information of public. Enclosed as Annexure D. |
| 11 | xi | Project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work. | Complied. |
